

BACKUP MANAGER

OVERVIEW

Revcord provides with every system purchased a program that will control the archiving of your data and how long you retain your data on your recorder.

SOFTWARE OVERVIEW

The Revcord Backup Manager service gives you the ability to backup data to various media types as well as set retention periods on how long you want to keep your data onsite. In addition, Revcord provides a Backup Manager client that can run on a remote system and manage multiple recorders with one graphical user interface. Lastly, it will provide for a centralized backup of all data. This provides for enterprise system management.

SOFTWARE DETAILS

The Revcord Backup Manager provides the following features:

- Schedule your Backups of your Call Data and Database Hourly, Daily, Weekly, or Monthly
- Manages Call Retention on the Server
- Backup to Various Forms of Media: DVD, NAS, DAS, and USB Hard Drives
- Maintains Hard Disk Space
- Centralized Backup Capabilities
- Enterprise Management of Multiple Recorders
